Sustainable solutions. Unparalleled performance.

Eco overseas has become one of the largest manufactures and supplies of industrial products for maintenance operational and repair needs in India. In 1982 this is the year when we started a small business of sewing machine part manufacturing from home. Day by day with high performance and quality work has become well known company globally and started new lines of hydraulic hose fittings, transmission line tower nut bolts, JCB arm bushes and so much more. Now at this time we have a number of satisfied customers in Africa Asia and in Arab countries.

Eco Overseas manufactures and supplies some of the most advanced industrial products in the world, delivering sustainable solutions and unparalleled performance to diverse industries including:

- > Automotive
- > Construction
- > Material Handling
- > Machine Tools
- > Agriculture
- > Fasteners
- > Mechanical Engineering
- > Garden Tools
- > Gate Valves & Fittings
- > Sewing Machine
- > Bicycle
- > Woodworking
- > Two Wheeler
- > Three Wheeler

Together we are transforming tomorrow.

Vision

To Aspire, Achieve and Acquire.

Our vision is to become a global service provider in every business vertical we deal in. With this, we strive to create a better atmosphere for everyone on planet earth.

Mission

To Connect, Innovate and Empower.

With the transformational tools of innovation, we aim to acknowledge and provide the best services to our consumers worldwide.

Why work with ECO OVERSEAS?

We have gained huge appreciation and demand across the globe by offering qualitative range of products. We offer our range in diverse specifications and at most competitive rates that suit the budgetary limits of the clients. Besides this, our fair dealing, ethical business practices and easy payment modes make us the first choice of the clients.

Our Quality Assurance

Quality is the way of life at Eco Overseas. From the steady hands of the surgeon to the nimble fingers of the diamond cutter, some things are best left to experts. Eco Overseas has a pool of machinery & quality checking tools, an in house fully equipped standard room and a team of proficient engineers & workers who possess skilled workmanship and are expertise in ensuring high quality standards.

Our first priority is to maintain the quality and reliability of the products; therefore we follow international quality standards and norms in manufacturing them. We have a team of highly skilled and experienced quality controllers, who keep an eye on each stage of the production processes, thereby ensuring their flawlessness and optimum finishing.

We Assure High Quality And Best Services Globally.

WE'LL WORK WITH
YOU TO SUPPLY EXACTLY
WHAT YOU NEED.

We work hard daily to meet
your industrial supply,
Equipment and tool needs
at a price that is
Convenient for your budget.

Whatever you need, we will strive
to find the best one, quality wise,
at the lowest price possible.

TOOL ROOM MACHINES FOR INDUSTRIAL PROCESSES

A tool room machine is required for various applications in industry where there is regular need to cut, shape and grind rigid materials like metal and wood. Various types of tool room machines are available in the market for use in several industrial processes:

- The Milling Machine is common and performs multiple operations which range from easy tasks like drilling, planing, slot and keyway cutting to the difficult tasks like die sinking and contouring.
- The Grinding Machines or grinders are employed in the task of grinding metal and other materials.
- The Shaping Machine is useful in the process of shaping metals in industry through removal of unwanted material from the surface of flat metal.
- The Slotting Machine is used in industry for the making of slots required on screw heads, wood screws, bolts and other essential components.

SPECIAL ADHESIVE FOR CONSTRUCTION

Eco Overseas provides solution for Waterproofing, Repair, Sealant, Grout & Tiling. It has high quality standardised products with latest technology formulations which enables high quality construction, ease of application without affecting any other properties.

- Factory manufactured, high quality products
- Easy to use and economical
- Easily available across the country
- Technical Support from our experts
- Available in convenient pack sizes

ALL TYPES OF FASTENERS

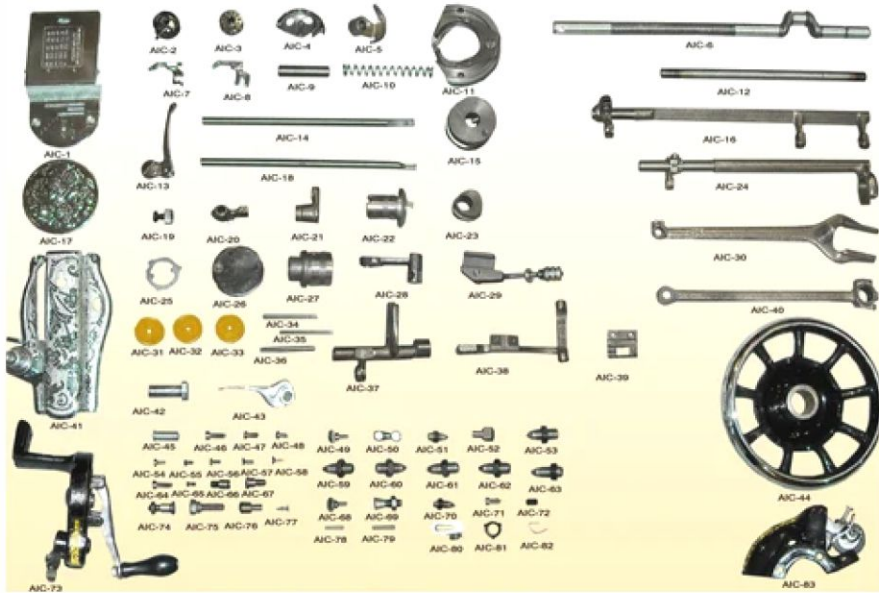

We are one of the leading fasteners supplier and exporter in India with a sizeable stock of Automotive Fasteners, Industrial Fasteners, Structural Fasteners, Road Crash Barrier Fasteners, B7 Studs, High Tensile Fasteners, Galvanized Fasteners, Threaded Rods, Etc. and we have large and deep stock of them. We are manufacturing and exporting wide range of fasteners confirming to rigid International Standards such as DIN, ASTM, BS, ANSI, etc. as well as customised requirements.

We are reputed name in the Fasteners industry and our products are widely used in different Sectors like Transmission Lines, Railway, Wind Mills, Automobile, Refinery, Power Plant, Machine Tools, General & Special Fasteners.
